

PART OF
spes GROUP

If the tent is in special offer, the price will be reduced manually after placing the order and sent via email by our Sales Department worker.

Sixteen-angled pavillon with one mast -construction based on guy ropes (what makes it easier to transport comparing to umbrella-type tents). Walls are detachable.

In our standard we use linen (about 650g/m2) with waterproof impregnation.

Available modifications:

Additional colours - Tents' sheet made of coloured cotton.

Coloured tapes - Coloured decorative tapes along the seams. Made of 3cm wide cotton tape.

Windshield - Additional 20 cm wide stripe of fabric attached to the bottom edge of the tent sheet to protect against wind and damp.

Lining - Additional layer of fabric inside the tent covering the walls. Might be produced in various colours*.

Decorative merlon - Decorative merlon, different than standard one (type 1). Three options available: tooth type (t. 2), crenels type (t. 3), waves type (t. 4).

Hand painted tent - Painted tent according to customer's suggestions.

The set consists of:

- the fabric (in two parts - roof + walls)
- a mast of 350cm height (in two parts)
- wooden ball for the top of the mast
- small wooden pole to place a flag on it
- 35 pegs + 2 spares
- a set of metal parts to join the two parts of the mast
- 35 wooden pegs for fastening the walls as well as mounting the guy ropes
- 3 anti-hurricanes ropes of 7.5 m length each
- 16 longer guy ropes of 4m length each
- 16 shorter guy ropes of 1,5m length each (fastened to the longer guy ropes).

* standard lining is machine sewn. Hand sewn is individually priced.
